SENIOR PRODUCT DESIGNER, CONVERSATIONAL & SERVICE DESIGN — BARCELONA, SPAIN

Dear eDreams ODIGEO Design team,

I'm applying for the Senior Product Designer, Conversational & Service Design role in Barcelona. eDreams ODIGEO's scale — one of Europe's largest OTAs, with a Prime subscription that is rewriting how people buy flights — makes the customer support and retention surface uniquely high-leverage. Simplifying and automating that ecosystem is exactly the kind of complex, cross-channel service design I've been doing on the travel side for the last two years.

At SnappTrip, Iran's leading travel booking platform, I own the service-design side of the journey across flights, buses, and trains. I mapped the entire support ecosystem and redesigned cancellation and refund flows end-to-end, which **reduced support contacts per ticket by 30%** and lifted self-service resolution. I ran A/B testing on solution cards that drove a **10% uplift in booking conversion**, and I overhauled filter UX for a **3X increase in filter conversion rate**. I partner day-to-day with Product, Engineering, and Data to connect design decisions to measurable outcomes — the exact loop your team describes between design strategies and business metrics.

I'm ready to relocate to Barcelona and am looking for an employer that supports a Spanish work visa (Highly Qualified Professional). eDreams ODIGEO's Product Design team — one of the largest in Spain, with its own UX lab — is where I would like to grow next, and I'd love to contribute to the Conversational & Service Design charter from day one.

I'd welcome a conversation about how my travel service-design experience could support eDreams ODIGEO.

Warm regards,

Farzaneh Abasnezhadford
