SENIOR PRODUCT DESIGNER, AUTOMATE — BARCELONA, SPAIN

Dear TravelPerk Hiring Team,

I'm applying for the Senior Product Designer, Automate role in Barcelona. TravelPerk is doing something I care about deeply: taking the pain out of business travel by automating the parts that should never have been manual — policies, approvals, expense reconciliation, traveler support. That's exactly the kind of workflow design I've spent my last two years at SnappTrip inside.

As Senior Product Designer at SnappTrip — a multi-vertical travel marketplace covering flights, buses, trains and hotels — I own end-to-end design across booking, policy and post-booking workflows. The results I'm most proud of translate directly to Automate: a cancellation redesign that **cut support calls per ticket by 30%** by letting travelers self-serve policy-driven decisions; a filter and search overhaul that drove a **3X filter conversion rate improvement**; and A/B tests on solution cards delivering a **10% uplift in conversion**. I partner day-to-day with Product, Engineering and Data Analysts to turn behavioral signals into automation that users actually trust. I'm also fluent in design systems and have been integrating AI tooling into research, UX writing and prototyping to ship faster.

Barcelona has been at the top of my relocation list — the design community, the pace, and TravelPerk's reputation specifically. I'm Tehran-based, fully ready to relocate, and would qualify for Spain's Highly Skilled Professional route; I can start the sponsorship conversation whenever useful. Open to on-site in Barcelona from day one.

I'd love to walk you through my SnappTrip workflow and policy automation work. Thank you for your time.

Warm regards,

Farzaneh Abasnezhadford
