SENIOR PRODUCT DESIGNER (B2C) — BERLIN, GERMANY

Dear GetYourGuide Hiring Team,

I'm applying for the Senior Product Designer (B2C) role in Berlin. GetYourGuide's mission — connecting travelers with the best experiences in every destination — is exactly the kind of product work I've spent the last seven years doing: turning complicated travel decisions into confident bookings. The chance to shape how millions of travelers discover, trust and choose experiences is a role I'd give everything to.

For the last two years at SnappTrip, I've been the Senior Product Designer behind consumer booking flows across flights, buses, trains and hotels. I lead end-to-end B2C design in close partnership with Product Managers, Engineering Managers and Data Analysts — the exact triad GetYourGuide's Reviews and Comparison teams work in. Three outcomes I'm most proud of: a filter UX overhaul that drove a **3X increase in filter conversion rate**, A/B tests on result cards that delivered a **10% uplift in conversion**, and a cancellation redesign that **cut support calls per ticket by 30%** by making self-service genuinely usable. I've also designed heavily around reviews, ratings and other trust signals, which is where I'd most like to make an impact for your Reviews team: capturing high-quality UGC and surfacing it where it moves bookings.

Berlin has been on my shortlist for years — for GetYourGuide specifically, and for the design community around it. I'm Tehran-based and fully ready to relocate; I'd qualify for the EU Blue Card and can start the sponsorship conversation whenever it's useful. Open to on-site in Berlin from day one.

I'd love to walk you through my SnappTrip reviews, filters and A/B work. Thank you for your time.

Warm regards,

Farzaneh Abasnezhadford
